SAFETY INFORMATION

- The following also applies to the Wireless Subwoofer (PS-WK50/PS-WK51).

SAFETY WARNINGS

TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR BACK),
NO USER-SERVICEABLE PARTS ARE INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

- Class II product: This symbol indicates that a safety connection to electrical earth (ground) is not required.

- AC voltage: Rated voltage marked with this symbol is AC voltage

- DC voltage: Rated voltage marked with this symbol is DC voltage.

- Caution. Consult instructions for use: This symbol instructs the user to consult the user manual for further safety related information.

WARNING

- To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

- To prevent injury, this apparatus must be securely attached to the floor/wall in accordance with the installation instructions.

- This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

CAUTION

- Do not expose this apparatus to dripping or splashing. Do not put objects filled with liquids, such as vases on the apparatus.

- To turn this apparatus off completely, you must pull the power plug out of the wall socket. Consequently, the power plug must be easily and readily accessible at all times.
FCC NOTE (for U.S.A):

Class B FCC Statement

The included module(s) has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

FCC Caution:

• Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
• This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances, such as radios and televisions, use shielded cables and connectors for connections.

Important Safety Instructions

Read these operating instructions carefully before using the unit. Follow all the safety instructions listed below. Keep these operating instructions handy for future reference.

1) Read these instructions.
2) Keep these Instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with a dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

LICENSES

Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

Manufactured under license from DTS Licensing Limited. DTS, the Symbol, & DTS and the Symbol together are registered trademarks, and DTS 2.0 Channel is a trademark of DTS, Inc. © DTS, Inc. All Rights Reserved.

HDMI

The terms HDMI and HDMI High-Definition Multimedia Interface, and the HDMI Logo are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.
PRECAUTIONS

Ensure that the AC power supply in your house complies with the power requirements listed on the identification sticker located on the bottom of your product. Install your product horizontally, on a suitable base (furniture), with enough space around it for ventilation (3~4 inches). Make sure the ventilation slots are not covered. Do not place the unit on amplifiers or other equipment which may become hot. This unit is designed for continuous use. To fully turn off the unit, disconnect the AC plug from the wall outlet. Unplug the unit if you intend to leave it unused for a long period of time.

During thunderstorms, disconnect the AC plug from the wall outlet. Voltage peaks due to lightning could damage the unit.

Do not expose the unit to direct sunlight or other heat sources. This could lead to overheating and cause the unit to malfunction.

Protect the product from moisture (i.e. vases), and excess heat (e.g. a fireplace) or equipment creating strong magnetic or electric fields. Unplug the power cable from the AC wall socket if the unit malfunctions. Your product is not intended for industrial use. It is for personal use only. Condensation may occur if your product has been stored in cold temperatures. If transporting the unit during the winter, wait approximately 2 hours until the unit has reached room temperature before using.

The battery used with this product contains chemicals that are harmful to the environment. Do not dispose of the battery in the general household trash. Do not expose the battery to excess heat, direct sunlight, or fire. Do not short circuit, disassemble, or overheat the battery. Danger of explosion if the battery is replaced incorrectly. Replace only with the same or equivalent type.

WARNING: DO NOT INGEST BATTERY. CHEMICAL BURN HAZARD. The remote control supplied with this product contains a coin/button cell battery. If the coin/button cell battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death. Keep new and used batteries away from children. If the battery compartment does not close securely, stop using the remote and make sure to keep it away from children. If you think the battery might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Check for the supplied accessories shown below.

- Remote Control / Lithium Battery
  (3V : CR2032)
  (AH59-02733B / 4301-001042)
- Power Cord : 2 EA
  (3903-000599)
- AC/DC Adapter
  (BN44-00862A)
- Optical Cable
  (AH39-00779A)
- Wall Mount Guide
  (AH63-04369A)
- Holder-Screw : 2 EA
  (AH61-04110A)
- Screw : 2 EA
  (6003-001334)
- Bracket-Wall Mount L
  (AH61-04106A)
- Bracket-Wall Mount R
  (AH61-04114A)

- The appearance of the accessories may differ slightly from the illustrations above.
- Micro USB and HDMI cables are sold separately. To purchase, contact a Samsung Service Center or Samsung Customer Care.
FRONT / RIGHT SIDE PANEL

1. (Volume) Button

Controls the volume level.
The numeric value of the volume level appears in the front panel display.

2. (Source) Button

Selects the D.IN, AUX, HDMI, BT, or TV input.
- While the unit is powered on, pressing the (Source) button for more than 3 seconds sets the button to act as the (Mute) button. To cancel the (Mute) button setup, press the (Source) button for more than 3 seconds again.

3. (Power) Button

Turns the power on and off.

Right Side

Display

Displays the current mode.

- When you plug in the AC cord, the power button will begin working in 4 to 6 seconds.
- When you turn on this unit, there will be a 4 to 5 second delay before it produces sound.
- If you want to enjoy sound only from the Soundbar, you must turn off the TV’s speakers in the Audio Setup menu of your TV. Refer to the owner’s manual supplied with your TV.
REAR / BOTTOM PANEL

DIGITAL AUDIO IN (OPTICAL)
Connect to the digital (optical) output of an external device.

SERVICE
To upgrade the product’s software through the USB Port.

AUX IN
Connect to the Analog output of an external device.

DC 24V (Power Supply In)
Connect the AC/DC power adaptor to the power supply jack, and then connect the AC/DC power adaptor plug to a wall outlet.

HDMI IN
Inputs digital video and audio signals simultaneously using an HDMI cable. Use when connecting a supported external device.

HDMI OUT (TV-ARC)
Outputs digital video and audio signals simultaneously using an HDMI cable.

Wi-Fi SETUP
Press this button to connect your Soundbar to your network using Wi-Fi setup. (Requires a smart device and the Samsung Multiroom app. See page 28.)

SPK ADD
Press the button to connect the Soundbar to a Samsung HUB (purchased separately) or a network. (Requires a smart device and the Samsung Multiroom app. See page 28.)

LABEL

WARNING
- When disconnecting the power cable of the AC/DC power adaptor from a wall outlet, pull the plug. Do not pull the cable.
- Do not connect this unit or other components to an AC outlet until all connections between components are complete.
- Make sure to rest the AC/DC Adapter flat on a table or the floor. If you place the AC/DC Adapter so that it is hanging with the AC cord input facing upwards, water or other foreign substances could enter the Adapter and cause the Adapter to malfunction.
**REMOTE CONTROL**

**SOURCE**
Press to select a source connected to the Soundbar.

**Mute**
You can turn the volume down to 0 with the push of a button. Press again to restore the sound to the previous volume level.

**Repeat**
The Repeat function is available only when playing back music using Songs on Phone or DMS in the Samsung Multiroom app.
- **OFF - REPEAT**: Cancels Repeat Playback.
- **TRACK - REPEAT**: Plays a track repeatedly.
- **ALL - REPEAT**: Plays all tracks repeatedly.

**Skip Forward**
If there is more than one file on the device you are playing, and you press the ▶ button, the next file is selected.

**Bluetooth POWER**
Press the Bluetooth POWER button on the remote to turn the Bluetooth POWER On function on and off. See pages 21 and 26 for details.

**SOUND**
- Surround Sound adds depth and spaciousness to the sound. Pressing the SOUND button repeatedly cycles through the Surround Sound settings:
  - **ON - SURROUND SOUND**
  - **OFF - SURROUND SOUND**

**SOUND EFFECT**
You can select from 6 sound modes - **STANDARD** (Original Sound), **MUSIC**, **CLEAR VOICE**, **SPORTS**, **MOVIE**, and **NIGHT MODE** - depending on the content you want to listen to.

- **STANDARD** mode if you want to enjoy the original sound.

**DRC (Dynamic Range Control)**
Lets you apply dynamic range control to Dolby Digital.
- Press and hold the SOUND EFFECT button for about 5 seconds in STANDBY mode to turn the DRC (Dynamic Range Control) function on or off.

**Anynet+**
- The Anynet+ function lets you control the Soundbar with the remote from an Anynet+ compatible Samsung TV.
  - The Soundbar must be connected to the TV via an HDMI cable.

**Auto Power Link**
- Synchronizes the Soundbar to a connected Optical source via the Optical jack so it turns on automatically when you turn on your TV. (See page 19)
  - The Auto Power Link function is only available in the D.IN mode.
DESCRIPTIONS

Volume
Adjusts the volume level of the unit.

Power
Turns the Soundbar on and off.

Play / Pause
Press the ▶ button to pause a file temporarily.
Press the ▶ button again to play the selected file.

Skip Back
If there is more than one file on the device you are playing, and you press the ◀ button, the previous file is selected.

SOUND CONTROL
Press to select TREBLE, BASS, SUBWOOFER LEVEL or AUDIO SYNC.
Then, use the ◀, ▶ buttons to adjust the TREBLE or BASS volume from -3 ~ +3, SUBWOOFER LEVEL volume from -12, -6 ~ +6.
Press and hold the SOUND CONTROL button for about 5 seconds to adjust the sound for each frequency band. 150Hz, 300Hz, 600Hz, 1.2KHz, 2.5KHz, 5KHz, and 10KHz are selectable and each can be adjusted to a setting between -6 ~ +6.

If the Soundbar is connected to a digital TV and the video appears out of sync with the audio, press the SOUND CONTROL button to sync the audio with the video. Use the ◀, ▶ buttons to set the audio delay between 0 ms ~ 300 ms. In TV mode and BT mode, the Audio Sync function may not be available.

Operate the TV using the TV’s remote control.

Controlling the Soundbar using Your TV Remote Control

1. Press and hold the (o) SOUND button for more than 5 seconds while the Soundbar is turned on.
2. “ON - TV REMOTE” appears on the Soundbar’s display.
3. In the TV’s menu, set the TV speaker to external speaker.

This function is not available when the Soundbar is in TV ARC mode or in HDMI mode.

- Only the VOL +/- and ◀ buttons are available to control the Soundbar.
- TV menus differ by manufacturer and model. Refer to the TV’s user manual for further information.
- Manufacturers supporting this function:
  - VIZIO, LG, Sony, Sharp, PHILIPS, PANASONIC, TOSHIBA, GRUNDIG, Hisense, RCA
  - This function may not be compatible with your TV’s remote depending on the remote control’s manufacturer.
- To turn off this function, press the (o) SOUND button for 5 seconds.
  "OFF - TV REMOTE" appears on the Soundbar’s display.
INSTALLING THE BATTERY IN THE REMOTE CONTROL

1. Use a suitable coin to turn the remote control’s battery cover counterclockwise to remove it as shown in the figure above.

2. Insert a 3V lithium battery. Keep the positive (+) pole facing up when inserting the battery. Put the battery cover on and align the ‘●’ marks side by side as shown in the figure above.

3. Use a suitable coin to turn the remote control battery cover clockwise as far as it will go to fix it in place.
INSTALLING THE SOUNDBAR

INSTALLING THE WALL MOUNT

**Installation Precautions**

- Install on a vertical wall only.
- For the installation, avoid a location with high temperature or humidity, or a wall that cannot sustain the weight of the set.
- Check the strength of the wall. If the wall is not strong enough to support the unit, reinforce the wall or install the unit on a different wall that can support the unit’s weight.
- Purchase and use the fixing screws or anchors appropriate for the kind of wall you have (plaster board, iron board, wood, etc.). If possible, fix the support screws into wall studs.
- Purchase wall mounting screws according to the type and thickness of the wall you will mount the Soundbar on.
  - Diameter: M5
  - Length: 1 3/8 inches or longer recommended.
- Connect cables from the unit to external devices before you install it on the wall.
- Make sure the unit is turned off and unplugged before you install it. Otherwise, it may cause an electric shock.

1. Place the **Wall Mount Guide** against the wall surface.
   - The **Wall Mount Guide** must be level.
   - If your TV is mounted on the wall, install the Soundbar at least 2 inches (5 cm) below the TV.
2. Align the Paper Template’s Center Line with the center of your TV (if you are mounting the Soundbar below your TV), and then fix the Wall Mount Guide to the wall using tape.

- If you are not mounting below a TV, place the Center Line in the center of the installation area.

3. Push a pen tip or sharpened pencil tip through the center of the A-TYPE images on each end of the Guide to mark the holes for the supporting screws, and then remove the Wall Mount Guide.

4. Using an appropriately sized drill bit, drill a hole in the wall at each marking.

- If the markings do not correspond to the positions of studs, make sure you insert appropriate anchors or mollies into the holes before you insert the support screws. If you use anchors or mollies, make sure the holes you drill are large enough for the anchors or mollies you use.
5. Push a screw (not supplied) through each **Holder-Screw**, and then screw each screw firmly into a support screw hole.

6. Use the two **Screws** (M4 x L12) to attach both **Bracket-Wall Mount L** and **R** to the Soundbar’s bottom. For a proper fit, make sure to align the bumps on the Soundbar to the holes on the brackets.

* When assembling, make sure the hanger parts of the **Bracket-Wall Mounts** are located behind the rear of the Soundbar. See the illustration above.

* The left and right mounts are different shapes. Make sure to position them correctly.
7. Install the Soundbar with the attached Bracket-Wall Mounts by hanging the Bracket-Wall Mounts on the Holder-Screws on the wall.

- Slightly tilt the Soundbar to insert both Holder-Screw heads into Bracket-Wall Mount holes. Push the Soundbar in the direction of the arrow to make sure both sides are firmly fixed.
1. To separate the Soundbar from the wall mount, push it in the direction of arrow, tilt it up slightly, and then pull it away from the wall as shown.

- Do not hang onto the installed unit and avoid striking or dropping the unit.
- Secure the unit firmly to the wall so that it does not fall off. If the unit falls off, it may cause an injury or damage the product.
- When the unit is installed on a wall, please make sure that children do not pull any of the connecting cables, as this may cause it to fall.
- For the optimal performance of a wall mount installation, install the speaker system at least 2 inches (5 cm) below the TV, if the TV is mounted on the wall.
- For your safety, if you do not mount the unit on the wall, install it on a secure, flat surface where it is unlikely to fall.
● Do not connect the power cord of this product or your TV to a wall outlet until all connections between components are complete.
● Before moving or installing this product, be sure to turn off the power and disconnect the power cord.

CONNECTING THE SUBWOOFER

CONNECTING TO THE SUBWOOFER AUTOMATICALLY

The Subwoofer’s linking ID is preset at the factory and the main unit and subwoofer should link (connect wirelessly) automatically when the main unit and subwoofer are turned on.

• When the subwoofer is completely connected, the blue LED Link Indicator on the subwoofer stops blinking and glows continuously.

CONNECTING TO THE SUBWOOFER MANUALLY

If the blue LED light does not stop blinking when the main unit and subwoofer are turned on, please set the ID by following the steps below.

● Important: Before you begin, put the battery into the remote. See page 11 for instructions.

1. Plug the power cords of the main unit and subwoofer into an AC wall outlet.
2. Press the **ID SET** button on the back of the subwoofer with a small, pointed object for 5 seconds.
   • The STANDBY indicator turns off and the LINK indicator (Blue LED) blinks quickly.
3. While the main unit is powered off (in STANDBY mode), press and hold the **Mute** on the remote control for 5 seconds.
4. The **ID SET** message appears on the Soundbar’s display.
5. To finalize the link, turn the main unit’s power on while the subwoofer’s Blue LED blinks.
   • The main unit and the subwoofer should now be linked (connected).
   • The LINK indicator (Blue LED) on the subwoofer should be glowing continuously and not blinking.
   • If the LINK indicator is not solid blue, the linking process has failed. Turn off the main unit and start again from Step 2.
   • You can enjoy better sound from the wireless subwoofer by selecting a Sound Effect. (See page 9)
Before moving or installing the product, be sure to turn off the power and disconnect the power cord.

If the main unit is powered off, the wireless subwoofer will in standby mode and the STNDBY LED on the front will blink Red directly. (no blue LED).

If you use a device that uses the same frequency (2.4GHz) as the Soundbar near the Soundbar, interference may cause some sound interruption.

The maximum transmission distance of the wireless signal between the main unit and subwoofer is about 32.8 ft, but may vary depending on your operating environment. If a steel-concrete or metallic wall is between the main unit and the wireless subwoofer, the system may not operate at all, because the wireless signal cannot penetrate metal.

If the main unit doesn’t make a wireless connection, follow steps 1-5 on the previous page to re-set the connection between the main unit and wireless subwoofer.

The wireless receiving antenna is built into the wireless subwoofer. Keep the unit away from water and moisture.

For optimal listening performance, make sure that the area around the wireless subwoofer location is clear of any obstructions.
CONNECTING TO A TV

- Important: Before you begin, put the battery into the remote. See page 11 for instructions.

CONNECTING TO A TV USING A DIGITAL OPTICAL CABLE

1. Connect the **DIGITAL AUDIO IN (OPTICAL)** jack on the Soundbar to the OPTICAL OUT jack of the TV with a digital optical cable.

2. Press the button on the right side of the Soundbar or the **SOURCE** button on the remote control to select the **D.IN** mode.

► Auto Power Link

If you have connected the main unit to a TV with a digital optical cable, you can set the Auto Power function ON to have the Soundbar turn on automatically when you turn the TV on.

1. Connect the Soundbar and a TV with a digital optical cable.

2. Press the button on the main unit’s right side or the **SOURCE** button on the remote control to select the **D.IN** mode.

3. Press the button on the remote control for 5 seconds to turn Auto Power Link on or off.

- Auto Power Link is set to ON by default.
- Depending on the connected device, Auto Power Link may not function.
- This function is only available in the **D.IN** mode.
CONNECTIONS

CONNECTING TO A TV USING AN HDMI (DIGITAL) CABLE

1. Connect an HDMI cable (not supplied) from the HDMI OUT (TV-ARC) jack on the bottom of the product to the HDMI IN jack on your TV.

2. Press the button on the right side of the Soundbar or the SOURCE button on the remote control to select the D.IN mode.

- HDMI is an interface that enables the digital transmission of video and audio data with just a single connector.
- If the TV provides an ARC port, connect the HDMI cable to the HDMI IN (ARC) port.
- We recommend you use a coreless HDMI cable if possible. If you use a cored HDMI cable, use one whose diameter is less than 0.55 inches.
- Anynet+ must be turned on.
- This function is not available if the HDMI cable does not support ARC.

TV SOUNDCONNECT

You can enjoy TV sound through your Soundbar when it is connected to a Samsung TV that supports the TV SoundConnect function.

1. Turn on the TV and Soundbar.
2. Press the button on the main unit’s right side or the SOURCE button on the remote control to select the TV mode.
3. On the TV, a message asking whether to enable the TV SoundConnect function appears.
4. Select <Yes> using the TV’s remote control to finish connecting the TV and Soundbar.
- If the TV SoundConnect linking process fails, navigate to SoundConnect in the TV's Sound menu, select Add New Device, and set Add New Device to ON. Then, try again.
- Switching the Soundbar's mode from TV to another mode automatically terminates TV SoundConnect.
- To connect the Soundbar to another TV, the existing connection must be terminated.
- To terminate the existing connection, press and hold the button on the remote for 5 seconds or switch to another mode. To connect to the other TV, follow Steps 1 through 4 on the previous page.

- The TV SoundConnect (SoundShare) function is supported by some Samsung TVs released from 2012 on. Check whether your TV supports the TV SoundConnect (SoundShare) function before you begin. (For further information, refer to the TV’s user manual.).
- If your Samsung TV was released before 2014, check the SoundShare setting menu.
- If the distance between the TV and Soundbar exceeds 32.8 ft, the connection may not be stable or the audio may stutter. If this occurs, relocate the TV or Soundbar so that they are within operational range, and then re-establish the TV SoundConnect connection.
- TV SoundConnect Operational Ranges:
  - Recommended pairing range: within 78.7 inches (within 2m).
  - Recommended operational range: within 32.8 ft. (10m).
- The Play/Pause, Next, and Prev buttons on the Soundbar or Soundbar’s remote do not control the TV.

**Using the Bluetooth POWER On function**

The Bluetooth POWER On function is available after you have successfully connected the Soundbar to a Bluetooth compatible TV using TV SoundConnect. When the Bluetooth POWER On function is ON, turning the connected TV on or off will turn the Soundbar’s power on and off as well.

1. Connect the TV to your Soundbar using the TV SoundConnect function.
2. Press the Bluetooth POWER button on the Soundbar remote. ON - BLUETOOTH POWER appears on the Soundbar’s display.
   - ON - BLUETOOTH POWER: The Soundbar turns on and off when you turn the TV on or off.
   - OFF - BLUETOOTH POWER: The Soundbar only turns off when you turn the TV off.

- This function is supported by some Samsung TVs released from 2013 on.
CONNECTING TO EXTERNAL DEVICES

OPTICAL OR ANALOG AUDIO CABLE

This unit comes equipped with one digital optical in jack and one analog audio (AUX) in jack, giving you two ways to connect it to external devices.

▶ AUX Cable

1. Connect AUX IN (Audio) on the main unit to the AUDIO OUT jack of the Source Device using an audio cable.
2. Press the button on the right side of the Soundbar or the SOURCE button on the remote control to select the AUX mode.

▶ Optical Cable

1. Connect DIGITAL AUDIO IN (OPTICAL) on the main unit to the OPTICAL OUT jack of the Source Device using a digital optical cable.
2. Press the button on the right side of the Soundbar or the SOURCE button on the remote control to select the D.IN mode.
HDMI CABLE

HDMI is the standard digital interface for connecting to TVs, projectors, DVD players, Blu-ray players, set top boxes, and more.
HDMI prevents any degradation to the signal due to conversion to analog and maintains the video and audio quality of the original digital source.

1. Connect an HDMI cable (not supplied) from the HDMI IN jack on the bottom of the product to the HDMI OUT jack on your digital device.

2. Press the button on the right side of the Soundbar or the SOURCE button on the remote control to select the HDMI mode.
INPUT MODE

Press the button on the main unit’s right side or the SOURCE button on the remote control to select the mode you want.

<table>

AUTO POWER DOWN FUNCTION

The unit turns off automatically in the following situations.

- **D.IN / HDMI / BT / TV Mode**
  - If there is no audio signal for 5 minutes.

- **AUX Mode**
  - If the AUX cable is disconnected for 5 minutes.
  - If there is no KEY input for 8 hours when the AUX cable is connected.

To turn the Auto Power Down function ON or OFF, press and hold the button for 5 seconds.

**ON - AUTO POWER DOWN / OFF - AUTO POWER DOWN** appears on the display.
BLUETOOTH

You can connect a Bluetooth device to the Soundbar and enjoy music with stereo sound, all without wires!

TO CONNECT THE SOUNDBAR TO A BLUETOOTH DEVICE

Check if the Bluetooth device supports the Bluetooth compliant stereo headset function.

1. Press the button on the main unit’s right side or the SOURCE button on the remote control to select the BT mode.
   - You will see BT READY on the front display of the Soundbar.

2. Select the Bluetooth menu on the Bluetooth device you want to connect. (Refer to the Bluetooth device’s user manual.)

3. Select the Stereo headset menu on the Bluetooth device.
   - You will see a list of scanned devices.

4. Select "[AV] Samsung Soundbar Kxxx" from the list.
   - When the Soundbar is connected to the Bluetooth device, it will display [Bluetooth device name] → BT on the front display.
   - The device name can only be displayed in English. An underline " _ " will be displayed if the name is not in English.
   - If the Bluetooth device has failed to pair with the Soundbar, delete the previous "[AV] Samsung Soundbar Kxxx" found by the Bluetooth device and have it search for the Soundbar again.

5. Play music on the connected device.
   - You can listen to the music playing on the connected Bluetooth device over the Soundbar.
   - In BT mode, the Play / Pause / Next / Prev functions are not available. However, these functions are available on Bluetooth devices supporting AVRCP.
FUNCTIONS

- If asked for a PIN code when connecting a Bluetooth device, enter <0000>.
- Only one Bluetooth device can be paired at a time.
- The Bluetooth connection will be terminated when you turn the Soundbar off.
- The Soundbar may not perform Bluetooth search or connection correctly under the following circumstances:
  - If there is a strong electrical field around the Soundbar.
  - If several Bluetooth devices are simultaneously paired with the Soundbar.
  - If the Bluetooth device is turned off, not in place, or malfunctions.
- Note that such devices as microwave ovens, wireless LAN adaptors, fluorescent lights, and gas stoves use the same frequency range as the Bluetooth device, which can cause electric interference.
- The Soundbar supports SBC data (44.1kHz, 48kHz).
- Connect only to a Bluetooth device that supports the A2DP (AV) function.
- You cannot connect the Soundbar to a Bluetooth device that supports only the HF (Hands Free) function.
- Once you have paired the Soundbar to a Bluetooth device, selecting "[AV] Samsung Soundbar Kxxx" from the device’s scanned devices list will automatically change the Soundbar to BT mode.
  - Available only if the Soundbar is listed among the Bluetooth device’s paired devices. (The Bluetooth device and the Soundbar must have been previously paired at least once.)
- The Soundbar will appear in the Bluetooth device’s searched devices list only when the Soundbar is displaying BT READY.
- In the TV SoundConnect mode, the Soundbar cannot be paired to another Bluetooth device.

BLUETOOTH POWER ON (BLUETOOTH POWER)

If a previously paired Bluetooth device tries to pair with the Soundbar when the Bluetooth POWER On function is on and the Soundbar is turned off, the Soundbar turns on automatically.

1. Press the Bluetooth POWER button on the remote while the Soundbar is turned on.

2. ON - BLUETOOTH POWER appears on the Soundbar’s display.

TO DISCONNECT THE BLUETOOTH DEVICE FROM A SOUNDBAR

You can disconnect a Bluetooth device from the Soundbar. For instructions, see the Bluetooth device’s user manual.

- The Soundbar will be disconnected.
- When the Soundbar is disconnected from the Bluetooth device, the Soundbar will display BT DISCONNECTED on the front display.
TO DISCONNECT THE SOUNDBAR FROM A BLUETOOTH DEVICE

Press the **SOURCE** button on the remote control or the ➔ button on the product’s right side to switch from **BT** to another mode or turn off the Soundbar.

- The connected Bluetooth device will wait a certain amount of time for a response from the Soundbar before terminating the connection. (Disconnection time may differ, depending on the Bluetooth device)

- In Bluetooth connection mode, the Bluetooth connection will be lost if the distance between the Soundbar and the Bluetooth device exceeds 32.8 ft.
- The Soundbar automatically turns off after 5 minutes in the Ready state.

► More About Bluetooth

Bluetooth is a technology that enables Bluetooth-compliant devices to interconnect easily with each other using a short wireless connection.

- A Bluetooth device may cause noise or malfunction, depending on usage, if:
  - A part of your body is in contact with the receiving/transmitting system of the Bluetooth device or the Soundbar.
  - It is subject to electrical variation from obstructions caused by a wall, corner, or office partition.
  - It is exposed to electrical interference from same frequency-band devices including medical equipment, microwave ovens, and wireless LANs.
- Pair the Soundbar with the Bluetooth device while they are close together.
- The further the distance between the Soundbar and Bluetooth device, the worse the quality is. If the distance exceeds the Bluetooth operational range, the connection is lost.
- In poor reception areas, the Bluetooth connection may not work properly.
- The Bluetooth connection only works when it is close to the unit. The connection will be automatically cut off if the Bluetooth device is out of range. Even within range, the sound quality may be degraded by obstacles such as walls or doors.
- This wireless device may cause electric interference during its operation.
USING THE MULTIROOM APP

The Samsung Multiroom app lets you connect the Soundbar to a smart device, your network, and the Internet. Once the Soundbar is connected to a smart device that has the Multiroom App installed, you can also connect the Soundbar and multiple Samsung Multiroom devices together wirelessly and play audio through them.

BEFORE YOU BEGIN

► Communication Basics

Requirements:
1. A Wireless Router and a Smart Device.
2. The wireless router must be connected to the Internet.
3. The smart device must be connected to the router via a Wi-Fi connection.

INSTALLING THE SAMSUNG MULTIROOM APP

To use the Soundbar with the Samsung Multiroom App, you must download and then install the Samsung Multiroom App on your smart device. You can download the app from Google Play or the App Store. With the Samsung Multiroom App installed, you can play music on your Soundbar that is stored on your smart device, located on other connected devices, provided by other content providers, or streamed from Internet radio stations.

► Android or iOS

Download the Samsung Multiroom app from Google Play or the App Store of your smart device.

* Market search: Samsung Multiroom

► Launching the Samsung Multiroom App

To launch the Samsung Multiroom app, tap the Multiroom app icon on your smart device.
CONNECTING THE SOUNDBAR TO YOUR NETWORK

On your smart device, select the Samsung Multiroom app. Follow the directions on your smart device’s screen.

USING THE NETWORK STANDBY ON FUNCTION

The Network Standby On function is available if a wireless connection has been properly established between a smart device and the Soundbar. This function turns on the Soundbar automatically when a smart device attempts to connect to the Soundbar via Bluetooth or Wi-Fi. If you turn the Soundbar on via a Bluetooth connection, its input mode is set to BT automatically. To turn the Soundbar on via Wi-Fi, you must have the Samsung Multiroom App installed on your smart device.

1. Connect the smart device to your Soundbar.

2. Turn on the Network Standby On function by pressing the button on the Soundbar’s remote for more than 5 seconds. You can turn the function off by pressing the button again for more than 5 seconds.

- Network Standby On is available only if the Soundbar is listed among the smart device’s paired devices. (The Smart device and the Soundbar must have been previously paired at least once.)
- Soundbar will appear in the smart device’s searched devices list only when the Soundbar is displaying [BT READY] or [WiFi READY].
- In the TV SoundConnect mode, the Soundbar cannot be paired to another smart device.
- If the Network Standby On function did not work:
  - The Network Standby On is set to Off. Set it to ON.
- The Wi-Fi connection to the Soundbar will be terminated if the Soundbar’s power cord is disconnected or the power is cut off. If the power is cut off, turn on the Soundbar and reconnect it.
- If the Network Standby is set to Off, the Soundbar cannot be turned on by Bluetooth connection.
SOFTWARE UPDATE

Samsung may offer updates for the Soundbar’s system firmware in the future. If an update is offered, you can update the firmware by connecting a USB device with the firmware update stored on it to the USB port on your Soundbar. Note that if there are multiple update files, you must load them onto the USB device singly and use them to update the firmware one file at a time. Please visit samsung.com or contact the Samsung call center to receive more information about downloading update files.

Updating Procedure

1. Connect a USB adapter cable with a male USB 2.0 Micro USB plug (Type B) on one end and a standard female 2.0 USB jack (Type A) on the other end to the micro USB jack on your Soundbar.

2. While the Soundbar is turned off, connect the USB storage device that contains the updating firmware to the female end of the USB adaptor cable.

3. Turn on the Soundbar. UPDATE appears on the display and updating begins within 3 minutes.

- When the update is complete, the Soundbar turns off and on automatically.

The USB adapter cable is sold separately. To purchase, contact a Samsung Service Center or Samsung Customer Care.
If UPDATE is not displayed

1. Turn off the Soundbar, disconnect and then reconnect the USB storage device that contains the update files to the female end of the USB adapter cable.
2. Disconnect the Soundbar’s power cord, reconnect it, and then turn on the Soundbar.

- Insert a USB device containing the firmware update into the USB port on the main unit.
- Updating firmware may not work properly if audio files supported by the Soundbar are stored in the USB storage device.
- Do not disconnect the power or remove the USB device while updates are being applied. The main unit will turn off automatically after completing the firmware update.
- After the update, all settings are reset to their factory default settings. We recommend you write down your settings so that you can easily reset them after the update. Note that updating firmware resets the subwoofer connection too.
  - If the connection to the subwoofer is not re-established automatically after the update, refer to page 17.
  - If the firmware fails to update, we recommend formatting the USB device in FAT16 and trying again.
- Do not format the USB device in the NTFS format. The Soundbar does not support the NTFS file system.
- Depending on the manufacturer, some USB devices may not be supported.

AUTO UPDATE

If the Soundbar is connected to the Internet, it will automatically check for the latest firmware and update when new firmware becomes available, even if it is turned off.

- The Soundbar is configured to run Auto Update by default.
- To use the Auto Update function, the Soundbar must be connected to the Internet.
- The Wi-Fi connection to the Soundbar will be terminated if its power cord is disconnected or the power is cut off. If the power is cut off, turn on the Soundbar and reconnect it.
Refer to the table below if this product does not function properly. If the problem you are experiencing is not listed below or if the instructions below do not help, turn off the product, disconnect the power cord, and contact Samsung Electronics at 1-800-SAMSUNG (1-800-726-7864).

※ Important Note About Service
- An administration fee may be charged if either:
  a. An engineer is called out to your home at your request and there is no defect in the product.
  b. You bring the unit to a repair center and there is no defect in the product.
- You will be advised of the amount of the administration fee before any work is done or a home visit is made.
- If you have a problem with this product, we strongly recommend you read the appropriate section of this manual, review the Troubleshooting section on page 32, visit the Support page for your product at www.samsung.com, or call Samsung Product Support (1-800-726-7864) to find an answer before you contact a service center for a repair.
WARRANTY

LIMITED WARRANTY TO ORIGINAL PURCHASER

This SAMSUNG brand product, as supplied and distributed by Samsung Electronics America, Inc. (SAMSUNG) and delivered new, in the original carton to the original consumer purchaser, is warranted by SAMSUNG against manufacturing defects in materials and workmanship for a limited warranty period of:

**One (1) Year Parts and Labor**

(*90 Days Parts and Labor for Commercial Use*)

This limited warranty begins on the original date of purchase, and is valid only on products purchased and used in the United States. To receive warranty service, the purchaser must contact SAMSUNG for problem determination and service procedures. Warranty service can only be performed by a SAMSUNG authorized service center. The original dated bill of sale must be presented upon request as proof of purchase to SAMSUNG or SAMSUNG’s authorized service center. Transportation of the product to and from the service center is the responsibility of the purchaser.

SAMSUNG will repair or replace this product, at our option and at no charge as stipulated herein, with new or reconditioned parts or products if found to be defective during the limited warranty period specified above. All replaced parts and products become the property of SAMSUNG and must be returned to SAMSUNG. Replacement parts and products assume the remaining original warranty, or ninety (90) days, whichever is longer.

SAMSUNG’s obligations with respect to software products distributed by SAMSUNG under the SAMSUNG brand name are set forth in the applicable end user license agreement. Non-SAMSUNG hardware and software products, if provided, are on an “AS IS” basis. Non-SAMSUNG manufacturers, suppliers, publishers, and service providers may provide their own warranties.

This limited warranty covers manufacturing defects in materials and workmanship encountered in normal, and except to the extent otherwise expressly provided for in this statement, noncommercial use of this product, and shall not apply to the following, including, but not limited to: damage which occurs in shipment; delivery and installation; applications and uses for which this product was not intended; altered product or serial numbers; cosmetic damage or exterior finish; accidents, abuse, neglect, fire, water, lightning or other acts of nature; use of products, equipment, systems, utilities, services, parts, supplies, accessories, applications, installations, repairs, external wiring or connectors not supplied and authorized by SAMSUNG, or which damage this product or result in service problems; incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions, cleaning, maintenance and environmental instructions that are covered and prescribed in the instruction book; product removal or reinstallation; reception problems and distortion related to noise, echo, interference or other signal transmission and delivery problems. SAMSUNG does not warrant uninterrupted or error-free operation of the product.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED AND DESCRIBED ABOVE, AND NO WARRANTIES WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY AFTER THE EXPRESS WARRANTY PERIODS STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BE BINDING ON SAMSUNG. SAMSUNG SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST SAMSUNG BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY SAMSUNG AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, PURCHASER ASSUMES ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND PURCHASER’S PROPERTY AND TO OTHERS AND THEIR PROPERTY ARISING OUT OF THE USE. MISUSE OR INABILITY TO USE THIS PRODUCT SOLD BY SAMSUNG NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF SAMSUNG. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT, IS NONTRANSFERABLE AND STATES YOUR EXCLUSIVE REMEDY.

The benefits of this Limited Warranty extend only to the original purchaser of Samsung products from an authorized Samsung reseller. THIS LIMITED WARRANTY SHALL NOT APPLY TO ANY SAMSUNG PRODUCTS PURCHASED FROM UNAUTHORIZED RESELLERS OR RETAILERS, EXCEPT IN STATES WHERE SUCH RESTRICTION MAY BE PROHIBITED. For a list of Samsung authorized retailers, please go to: http://www.samsung.com/us/peaceofmind/authorized_resellers.html

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To obtain warranty hardware service, please contact SAMSUNG customer care center.
